September 2021

Better Security, Better Care

DSPT
Better security.
Better care.

- National programme funded by NHSX
- Its overall aim is to help make sure adult social care providers have good data and cyber security in place
- By helping care providers to register on and complete the Data Security and Protection Toolkit (DSPT), which demonstrates good practice in this area
- Local and national support e.g. Digital Social Care - dedicated space to provide advice and support to the sector on technology and data protection
<https://www.digitalsocialcare.co.uk/>

How the training will work

DSPT
Better security.
Better care.

- We will take you through each question for this section of the Toolkit
- If there is anything that you cannot answer straight away:
 - Make a note of what you need to do on the action plan
 - We will follow up on these next time

What we'll be covering in this module

DSPT
Better security.
Better care.

- Why your business needs a suitably trained Data Security and Protection Lead
- The importance of data protection and cyber security training for all staff
- Staff records and contracts
- How to carry out a training needs analysis for all staff
- How to find the right training materials and providers for your needs
- Useful links
- Where to find help
- Next steps

Login to the Toolkit

DSPT
Better security.
Better care.

- Go to <https://www.dsptoolkit.nhs.uk/Account/Login>
- Or put in 'DSPT login'

Staff records

DSPT
Better security.
Better care.

What the DSPT questions ask

DSPT
Better security.
Better care.

- 4.1.1 Does your organisation have an up to date record of staff, and volunteers if you have them, and their roles?

Data security and protection - Knowing your responsibilities

DSPT
Better security.
Better care.

- 1.1.5 Who has responsibility for data security and protection and how has this responsibility been formally assigned?
- Do you know who would be the Data Security and Protection Lead within your organisation?
- Do you know if this role has been formally assigned?
- If you're not sure, what do you need to do to find out? What needs to be put in place

Who has responsibility for what?

DSPT
Better security.
Better care.

Who leads data security?

- You need a Data Security and Protection Lead
- For small businesses this may be the owner
- Usually incorporated into someone's role but has additional skills and knowledge
- Elements of the role can be delegated
- Whoever it is they must be named, and it must be recorded - perhaps in their job description

Who has overall responsibility?

Data Security and Protection Lead

DSPT
Better security.
Better care.

The lead person in your business for your data security and protection work:

- Ensures individual's personal data rights are upheld
- Monitors information handling to ensure compliance with law
- Defines data protection policies and procedures
- Understands and completes the Data Security and Protection Toolkit, annually
- Champions good data protection practice
- Has good knowledge and appropriate skills around data security and protection

KiCA
KENT INTEGRATED
CARE ALLIANCE

Data Security and Protection - Specialist Support Roles

DSPT
Better security.
Better care.

Data Protection Officer (DPO)

- Under legislation (GDPR) certain types of organisations must appoint a DPO
- For social care providers this is likely to only apply to large multi-site organisations

Caldicott Guardian

- The Caldicott Guardian is a senior person who is responsible for protecting the confidentiality of people's health and care information and making sure that it is used properly
- It is mandatory for NHS and all local authorities providing social services to have a Caldicott Guardian

What the DSPT questions ask

DSPT
Better security.
Better care.

- 2.1.2 Do all employment contracts, and volunteer agreements, contain data security requirements?

Clauses in contracts and agreements must reference data security

DSPT
Better security.
Better care.

Issue	Example
Confidentiality	Maintaining all information confidentially; this includes careless conversations, sending information to the wrong address, records being hacked
Integrity	Records are maintained accurately ie any inaccuracies or errors are corrected
Availability	The required data is available when required

Draft staff contract clause

DSPT
Better security.
Better care.

- During or after your employment with us, you must not disclose any trade secrets or any information of a confidential or sensitive nature about:
 1. insert organisation name here; or
 2. any of our service users; or
 3. any of our employees.
- There is an exception if you need to share this information as part of your job or if you are made to by law.
- It is the responsibility of all staff to ensure data security. You will be responsible for the confidentiality, integrity and availability of all data which you have access to in the course of your work.

Do your staff contracts contain a clause to cover this?
What would need to happen to put this in place?

14

Further information and guidance

What the DSPT questions ask relating to training

DSPT
Better security.
Better care.

- 2.1.1 Does your organisation have an induction process that covers data security and protection, and cyber security?
- 3.1.1 Has a training needs analysis covering data security and protection, and cyber security, been completed since 1st July 2021?
- 3.2.1 Have at least 95% of staff, directors, trustees and volunteers in your organisation completed training on data security and protection, and cyber security, since 1st July 2021?
- 3.4.1 Have the people with responsibility for data security and protection received training suitable for their role?

Induction training should cover

DSPT
Better security.
Better care.

- The importance of data security in the care system
- The National Data Guardian's data security standards, relating to personal responsibility
- The applicable laws (GDPR, etc) knowing when and how to share and not to share
- Physical security
- How to protect information
- Knowing how to spot and report data security breaches and incidents
- Understanding safe use of social media and email
- The dangers of malicious software

Induction training

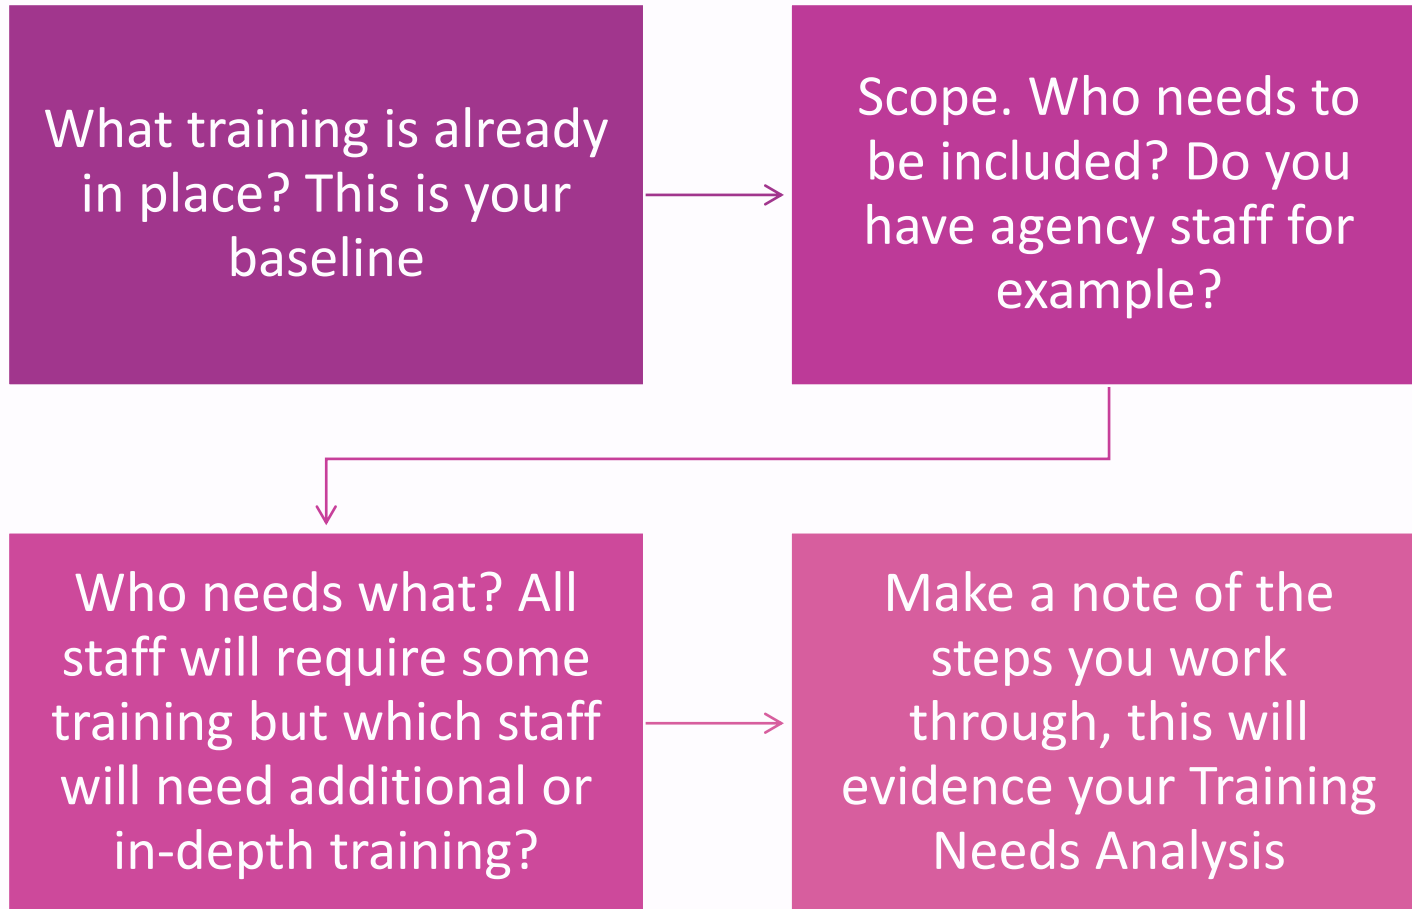

DSPT
Better security.
Better care.

- Does your induction training cover the above?
- If not, does it cover some of those things? What might be missing?
- What would need to happen to make sure all the areas are covered?

Training needs analysis - Where to start?

“A training needs analysis is a process which helps identify the data security and protection, and cyber security, training and development needs across your organisation”

Your organisation’s training needs analysis should identify the level of training required by your staff and should be reviewed annually

DSPT
Better security.
Better care.

Training needs analysis - All staff (example)

Area of training	Types of staff	Staff member name
Data and cyber security awareness and good practice, including: • Data protection • Data quality • Record keeping • Data security • Confidentiality • Rights of individuals under GDPR including subject access requests	All Frontline Care Staff Office Staff Managers Board members	
Physical security including paper records and files	All	
Preventing data and cyber security threats including awareness of potential threats, and reporting incidents (data breaches) including near misses	All	

CARE ALLIANCE

ED

Training needs analysis

Additional training (example)

DSPT
Better security.
Better care.

Area of training	Types of staff and roles
Email good practice	Staff who use email
Password good practice	Staff using passwords to access company systems
Safe use of removable media (memory sticks) with company computers	Staff using computers to do their work
Safe use of company laptops, tablets and phones	Staff provided with company devices
Safe use of personal mobile phones to carry out company business	Those who use generic systems such as WhatsApp for work or who use an App to view care records using their own phones. Those who access company email and/or documents or systems from their own devices.

CARE ALLIANCE

ED

Training staff with responsibility for data security and protection

DSPT
Better security.
Better care.

- Your Training Needs Analysis will identify the people with responsibility for data security and protection. It is pivotal that they receive appropriate training
- Training in the content of the Data Security and Protection Toolkit as a minimum for your Data Security and Protection Lead
- Decide which functions will be covered by your Data Security and Protection Lead and which will be 'out-sourced' to IT supplier/support

Training staff with responsibility for data security and protection

DSPT
Better security.
Better care.

Training required for your Data Security and Protection Lead

Area of training	Type of staff and roles
DSPT	Data Security and Protection Lead, managers
Business continuity planning and data protection impact assessments (DPIA)	Data Security and Protection Lead, managers
Software updates	Data Security and Protection Lead, managers

KENT INTEGRATED
CARE ALLIANCE

Training staff with responsibility for data security and protection

DSPT
Better security.
Better care.

Area of training	Type of staff and roles
<p>IT infrastructure, including: Operating system updates • Backups • Firewalls • Anti-virus software installation/updates • Network management (if a network of computers is in place)</p>	<p>Internal or external IT support. If there is no IT support then the Data Security and Protection Lead or manager may require training</p>
<p>Secure use of company hardware:</p> <ul style="list-style-type: none"> • Encryption • PINs and two factor authentication • Remote tracking/wiping of mobile devices • Limiting downloads to verified software 	<p>As above</p>
<p>Software updates Setting up user accounts and control of access to which parts of systems</p>	<p>As above</p>

CARE ALLIANCE

Annual training standard – the 95%

DSPT
Better security.
Better care.

- Your Training Needs Analysis identifies who handles personal data, and therefore who needs training annually
- You must keep records to identify possible gaps if staff leave and timings for annual refresher training
- Records of who have completed what training is essential so you know 95% of staff have been trained
- Training can be delivered in a variety of ways and sourced dependent on how specialist the subject matter

Annual training standard - Ways to train

DSPT
Better security.
Better care.

- Induction training
- Discussions in team meetings
- E-learning – can be useful for refresher training
- Formal training
- Specialist training, e.g. from a care management software supplier

Annual training standard - Sources of training

DSPT
Better security.
Better care.

- Digital Social Care
 - Local NHS CCG
 - Local authority
 - The National Cyber Security Centre
 - Your care management software supplier
 - Specialist social care training providers
-
- What are your arrangements for training?
 - What sorts of training methods are used?
 - How are relevant staff included?

You must record exactly what training staff have completed and when
